

Pentagon

► FT200 Bronze 20 Solar Control Film

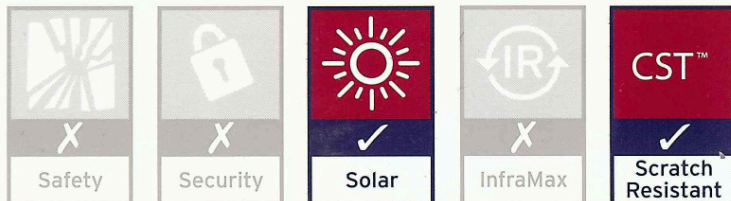

A popular film with a warm copper appearance, especially suitable in combination with brown or wood window frames and natural stone. The added benefit of high heat rejection makes it a very popular choice for cooling building 'hot spots'.

FEATURES AND BENEFITS

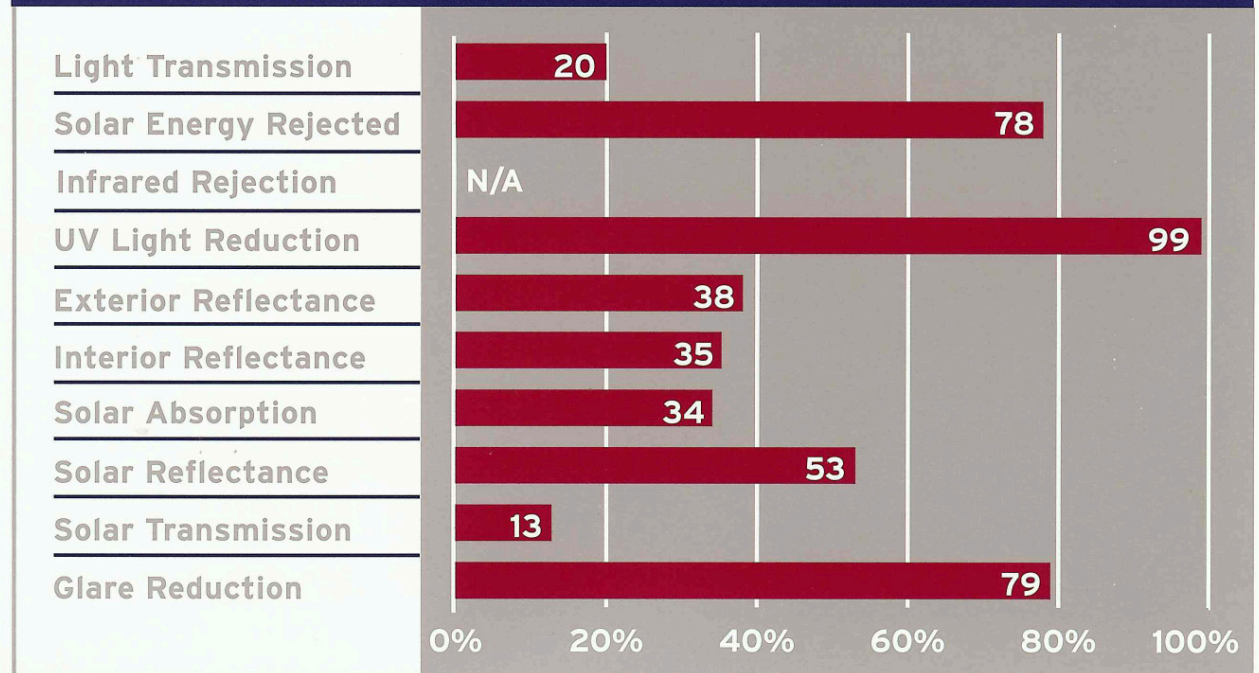

- Guaranteed to hold its colour
- Available in different shades
- Also available in a lighter shade

Available as solar/safety combination **No**

Version available for external use **No**
